Close of an Important Meeting of International Committee.

NEXT WORLD'S CONFERENCE IN '93

To Be Held at Basie, Switzerland in August-An Additional Secretary Chosen and a Number of Important Questions Considered.

Geneva, Aug. 14.-An important

meeting of the central international committe of the Young Men's Christian association of the world closed its sessions in Geneva last night. It met Monday, Aug. 10, at the country home of M. Frnest Favre, a few miles from this city, and continued in session morning, afternoon and evening until last night. This committee is uppointed by the world's convention, which represents all associations, now numbering over 5,700, with a total membership of 500,000, of which 1,000 associations with 235,000 members are in America. A quorum of the committee and its officers are located in Geneva. The American members of the committee are Messrs. James Stokes and Richard C. Morse of New York. The British members are Sir Georga Williams and W. H. Mills of London. The Swedish member is Prince Oscar Bernadotte, son of the King of Norway and Sweden, and each other country has one member. In addition to the resident members of the committee there were in 2ttendance Thomas K. Cree. secretary of the international committee, New York: W. H. Mills, London; Herr Krumacher, Eberfeld: Emanuel Sautter, Paris: Cavaliere Piovinelli, Rome: Sari-Bou Warnery, Basie; Dr. Karl Fries, Stockholm; Count von Bernstoff and Baron Rothkiche, Berlin. Encouraging reports of the work in various countries were presented by the different representatives, showing marked progress since the jubilee celebration in London in 1894. The most important business of the meeting was the election of Christian Phildius of Berlin as an additional secretary. During part of the past year Herr Phildius has been acting as temporary secretary and has done good work in Austria, Russia, Finland, Sweden, Holland and other continental countries. Charles Fermand of Geneva was elected as one of the secretaries of the committee. The increase of the secretarial force of the committee will involve an additional expenditure of 10,000 francs per annum. A sub-division of the work of the committee was provided for, giving M. Fermand the supervision of the associations in the Latin countries, and Mr. Phildins those in the Teutonic countries. A number of important questions relating to the growth and improvement of the work, more particularly in continental countries, were carefully considered. Among the resolutions adopted was one on the "l'aris basis" of membership, which was adopted by a convention held in Paris in 1995, and which is known to association men in America as the Portland test of active membership. The discussion of this resolution was opened with a paper by Thomas K. Cree of New York. The Paris basis is recognized by all the associations affiliated in the World's alliance, but is practically disregarded in some continental countries, where nominal membership in the state church is substituted for it. It was

New York, Aug. 14.-The German steamer Furst Bismarck of the Hamburg-American line broke her own record from Southampton to New York, making the passage in seventynine minutes less time than ever before. Her time was six days, nine hours and forty-three minutes, and her best previous performance was six days, ten hours and thirty-two minutes. She encountered very smooth seas and calm weather all the way across, but reported much haze and fog. She came by way of Cherbourg, France.

Boston Walters on Strike.

Boston, Aug. 14. - The waiters in various restaurants have been called out by the Waiters' union. Three dollars per week advance is demanded in salaries, which are no \$7, and \$1 per week is demand for "noon waiters." It is experted that many other restaurants in town will be struck.

Summer Hotel Partially Burned.

Greenport, L. I., Aug. 15 .- The Manhanset house, the largest summer resort on Shelter Island, was partly destroyed by fire yesterday. Loss, \$190,-000. It had accommodations for 500 guests. The guests all escaped without injury.

New Democratic Campaign Document.

Washington, Aug. 14 .- The democratic committee has issued a new campaign document, being a pamphlet entitled "The Money of the Constitution " The title page bears the motto: "A Policy Representing Prosperity vs. A Poney Producing Disaster."

IMPRISONED SINGLE TAXERS. Much Interest in the Hearing of Their Appeal at Wilmington, Del.

Wilmington, Del., Aug. 14.—Argu-

ment was begun before Judge Wales on the United States court yesterday on the application of the single tax prisoners for release from the Dover jd. James J. Haggerty and Arthur Stephenson, the petitioners, were in e urt. Jackson H. Raiston, counsel for the applicants, opened argument for the applicants before Judge Wales, who had refused to have the evidence taken at the hearing before the lower justice reviewed. The court said the aly question to be determine was whether the commitment of prisoners was or was not contrary to the constiturion of the United States. Attorney Raiston held that the ordinance under which the sixteen men were committed was illegal and void and conflicting with the provisions of the Dover town charter. He also contended that the convictions were contrary to the provisions of the constitution of the United States. Beniah Watson, for the Dover authorities, replied to Ralston. He held that the trial of the prisioners was not contrary to the provisions of the constitution and that the town ordinance was proper. There is much interest in the case, and the court room was eron ded

"EARLY LIFE OF CHRIST." Lecture Delivered by Rev. Mr. Morgan of England at Northfield, Mass.

Northfield, Mass. Aug. 14.-Rev. Mr. Morgan of Birmingham, England, gave an address yesterday on "The Early Life of Christ." The preacher drew lessons regarding the bearing of Christians in every-day life. Dr. C. Scoffield, late of Dallas, Tex., and now pastor of the Congregational church here, followed with an address on Kadesh Barnea. Rev. F. B. Meyer of London answered a number of questions that have been proposed to him since he commenced his course of lectures. D. L. Moody invited the visitors to drive to Mount Hermon in the afternoon and inspect the school buildings. On their way each a short service was held at the grave of Mr. Moody's mother, who died last January. "Grandma" Moody, as she was generally called, was well known to those who have been coming to the conferences at Northfield during the past fourteen years.

Serious Charge Against Murray Hill Bank New York, Aug. 14 -A depositor of complaint with the district attorney family accompanied them to Marion, against the officers accepting a \$3,000 deposit when they knew the bank was insolvent. This is a penal offense.

The matter will be laid before the

grand jury on Monday next. Victims Now Number Five.

Pittsburg, Aug. 14.-The body of Amiel Sheffer, aged 14, a victim of yesterday's storm, was taken from Pine creek, near Etna, last evening. The body of a man supposed to have been drowned in the storm was discovered floating in the drift in the Allegheny river, near Sharpsburg. This makes five the total loss known.

M'KINLEY CAMPAIGN BRYAN NEEDS

What Is Going on at the Chicago Headquarters.

THREE SENATORS CALL ON MR. HANNA

They Discuss the Outlook in the West with the National Chairman-Mr. Manna's Comment on Bryan's Madison

Equare Garden Speech. Chicago. Aug. 14 .- Three United States senators, Messra Shoup of Idaho, Mitchell of Oregon and Nelson of Minnesota, spent part of yesterday afternoon at republican national headquarters and conferred with Chairman Hanna on organization plans and needs of the party in their respective states. Senator Shoup says there is a big fight before him in his state, but he told Mr. Hanna to count Idaho in the republican column. Senator Nelson, who has been making numerous stump speeches in Minnesota, said Minnesota was safely republican; and Senator Mitchell's judgment was that Oregon would also go republican. Mr. Hanna said he had partly read Mr. Bryan's speech of acceptance, and made this comment: "I thought it very much of a skimmer. From the general tone and direction of the speech, contrasted with the platform, it seems to me Mr. Bryan is trimming his sails to catch the eastern breeze of democratic votes," Gen. Powell Clayton wired Perry Heath last night from New York asking for a copy of the Chicago convention proneedings for the special use of Gen.

VIOLATED NO REGULATION.

Harrison on the stump.

Refusal of the 'Frisco Sub-Tremsury Te

Luchange Gold for Silver Certificates. Washington, Aug. 14.-The treasury department has received no information about the alleged refusal of the assistant treasurer at San Francisco to exchange gold for silver certificates. This is a policy that has been followed for years and is peculiar alone to the san Francisco sub-treasury. On the Pacific coast nearly all the money in circulation is gold and silver coin. But little paper money is used. For the convenience of bankers and others who desired to make shipments of money to the east, a practice has grown up at San Francisco of exchanging silver certificates for gold. It costs less to ship \$1,000 in paper to New York than \$1,000 in coin. In this way the officials of the sub-treasury generally made all forms of money interunangeable over its counter. As a result, the sub-treasury gained from \$2,000,000 to \$3,000,000 annually for the past few year while all other subtreasuries in the east were losing gold. As it was simply a practice and not a treasury regulation, treasury officials say there was no need of their being nformed of it. If it is resumed they will be equally in ignorance.

Hale Johnson Formally Notified.

Chicago, Aug. 14.—Hale Johnson of Newton, Ill., was formally notified in the Association Building auditorium last night of his nomination by the prohibitionist convention at Pittsburg for the office of vice-president of the United States. There was a small audience, but it was not lacking in enthusiasm. In accepting the nomination, Mr. Johnson arraigned the old parties on the charge of responsibility for the continuance of the liquor traftie, its growth and its power in politics.

MRS. BRYAY IS ALSO FITIGUED

Where They Will Spend the Night, Continuing Their Journey to

Bath, Me., To-morrow. New York, Aug. 14.-It was announced at democratic headquarters this morning that Mr. Bryan would probably leave this afternoon for Boston, where he would spend the night, and to-morrow go to Bath, Me., and spend Sunday at the residence of Mr. Sewall. The democratic nominee is reported to be greatly fatigued, and Mrs. Bryan is also in need of rest. A quiet Sunday at Bath, it is expected, would be greatly beneficial to both. Whether Mr. Bryan intends to do campaign work in New England at this time is not stated A committee from Asbury Park, N. J., called at democratic headquarters last evening with an invitation to Mr. and Mrs. Bryan to visit Asbury - Park. Senator Jones had a conference during the afternoon in his room in the Fifth Avenne hotel with leaders of the democratic party. Among those present were Senators Gorman and Tillman. Gov. Stone of Missouri and Vice-Presidential Candidate Sewall After the meeting Mr. Jones informed the United Associated Press reporter that nothing had been done in the way of appointing committees or in relation to securing headquarters for the cam-

New York, Aug. 14.—Only a few women responded to the invitation to meet Mrs. Bryan and Mrs. Bland at a reception held for women only in the parlors of the Windsor hotel, at Forty-sixth street and Fifth avenue, yesterday afternoon, because the reception had not been properly announced, and many who would have attended failed to receive notification of the intended reception. At 4 o'clock, the hour originally set, only twenty-three women were waiting in the handsomely furnished parlors. Half an hour later Mr. St. John escorted Mrs. Bryan, Mrs. Bland and Mrs. Stewart to the room and the women flocked around them. There was a kind of formal handshaking, and then the rest informal chatting.

Bryan's Speech Criticized.

New York, Aug. 14.-Ex-Gov. Cornell has addressed an open letter to Wm. J. Bryan expressing great disappointment at the Madison Square garden speech of the democratic nominee. He charges that the message was simply an ingeniously appropriated presentation of the various arguments heretofore read in congressional debates during the past twenty-five years. He gives as his excuse for thus addressing him the belief that the approval of Mr. Bryan's views at the approaching election would bring calamity which it is impossible to apprehend.

GLASS-WORKERS' WAGES.

Two Conferences Adjourn Without Reaching a Solution of the Question.

Pittsburg, Aug. 14.—The wage-scale conference between the Western Flint Bottle association and representatives of the American Flint Glass Workers' union has adjourned without date, having failed to arrive at an amicable agreement on the wage scale. The workmen withdrew their demand for the restoration of the '92-'93 wage scale, which is about 7 per cent. above last year's rate. The manufacturers reduced their demand for a reduction of 40 per cent. to 33 1-3 per cent. This the workers refused, and no time was set for another conference. It is believed, however, that a satisfactory adjustment will be effected. The conference at Cresson Springs between the National Green Bottle Manufacturers' association and the Green Glass Blowers' league on the new wage scale also failed to arrive at a satisfactory conclusion and adjourned without fixing a date for another conference.

Another Filibuster Salls.

Savanah, Ga., Aug. 14.-A special from Brunswick, Ga., says: Beyond reasonable doubt, the Brunswick tug Dauntless is enroute to Cuban waters with a filibustering expedition, consisting of about 100 men, and severahundred cases of small arms. The Spanish and United States government officers have been greatly exercised and United States Marshal Harrell arrived here last night to aid in stopping it, but was powerless.

Wyoming Republicans.

Cheyenne, Wyo., Aug. 14 -The Wyoming republican convention, after two hours' discussion in committee overa satisfactory plank, adopted the following: We favor the free coinnge of gold and silver into standard money as expressed in our former platforms ancier such legislation as will guaranee that all our money shall remain on n concerty. This is apparently sat s-- core to both the gold and silver facon in the state.

DR. NANSEN RETURNING HOME. Failure of Another Attempt To Reach the

London, Aug. 14.-Advices from Malmo confirm the report that Dr. Fridthof Nansen is returning from his attempt to reach the North Pole by drifting to it in a steamer. He is, as the St. James' Gazette dispatch states, at Vardoe. He is accompanied by Lieut. Hansen. They left the steamer Fram, in which Dr. Nansen expected to be carried by the drifting ice to and across the pole, last autumn. The expedition failed to reach the object of its search, but it got four degrees further north than did any previous expedition.

All Reported Well.

Vardoe, Aug. 14.-Dr. Nanson, the Arctic explorer, arrived here last evening. He says that his expedition attained one of its objects in traversing the Polar sea to a point northward of the New Siberian islands, namely, to latitude 86 degrees 14 minutes north. No land was sighted north of latitude 82 degrees. After reaching the parallel of 86:14 the expeditition went south to Franz Joseph's land, where it spent the winter, the members subsisting on bear's flesh and blubber. Dr. Nausen arrived here on the steamer Wind. ward, which is conveying provisions to the Jackson-Harmsworth expedition. The explorer is perfectly well. The Fram is expected to arrive at Vardoe or Bergen in a short time. All was well aboard of her when Dr. Nansen left her. Thus ends another attempt to penetrate the secret of the icy

OVERWORKED ENGINEERS. Physical Collapse of Two Naval Officer. Causes a Subject for Serious Thought.

Washington, Aug. 14.-The alarming news received at the navy department telling of the physical collapse of chief engineer George E. Tower and passed assistant engineer Andrew Mc-Allister, both of the battleship Indiana, gave rise in the minds of naval officers on duty here to the question whether in the care of our warships the danger line had not been crossed in the attempt of the overworked naval engineers to carry on the exacting duties required of them. The North Atlantic squadron has now had only nine days of grand manoeuvres, and during that short period the efficiency of the most powerful battleship in the fleet has been temporarily impaired, two of the four naval engineers attached to the vessel having been condemned by medical survey and sent to the Naval hospital for treatment "It is not surprising," said a prominent official to-day, "that this repeated tale of the prostration of naval engineers is heard from our warships. In the British service there are onehalf as many engineers as deck officers. while in the American navy there are only one-fourth as many engineers as there are officers of the line. The physical history of the corps of naval engineers during the past two years is a sad one, and it emphasizes the fact that not only must the number of engineers be increased, but their condition should be improved in order to render the ships efficient for the day of battle. The engineers are now working under an organization which was founded upon the necessities of wooden ships, but which is not adapted to vessels of steel."

Carriage Trade Failure.

Cortland, N. Y., Aug. 14.-The H. M. Whitney, company, manufacturers of fine carriage, was closed by the sheriff yesterday on six executions aggregating \$31,442 in favor of the National bank of Cortland and the First National bank of Cortland. The company's assets largely exceed its liabilities. The embarrassment was due solely to falling off of orders and inability to raise money to meet current obligations.

Britannic Breaks Her Own Record.

New York, Aug. 14.-The White Star steamer Britannie yesterday broke her own record from Daunt's Rock to Sandy Hook lightship by three hours and twenty-three minutes. Her best previous passage was made in seven days, ten hours and fiftythree minutes, some fifteen years ago, and the trip just ended was made in seven days, seven hours and thirty minutes.

Illinois People's Party.

Springfield, Ill., Aug. 14 .- The new state central committee of the people's party organized by selecting Herman E Taubeneck of Marshall, chairman; Charles E. Palmer, Noble, secretary; S. B. V. Arnold, Springfield, treasurer. Headquarters will be established in Springfield. A committee was anpointed to confer with Chairman Hinrichsen regarding the plans of the campaign.

WRIGHT IS OUT NOW

His Resignation Accepted by Keystone Democratic Committee.

J. Y. GARMAN THE NEW CHAIRMAN

town To Reconvene at Harrisburg-> An Effort To Be Made To Change the Gold Platform to Silver.

Harrisburg, Pa., Aug. 14.-John M. Garman of Luzerne county was elected chairman of the democratic state committee yesterday afternoon, to succeed Robert E. Wright of Allentown, whose resignation was accepted with a vote of thanks for his services in the past and regret that he cannot see his way clear to go along with the Chicago ticket and platform. This resolution was offered by City Chairman Curley of Philadelphia. There were a few who did not want to hear read either his letter of resignation or his correspondence regarding withdrawals of electors on the state ticket, but thev were listened to in part as Secretary Savage hurriedly read the letters. It was agreed that the recent state convention held at Allentown should be reconvened in Harrisburg on Thursday, Sept. 10, at 12 o'clock for the purpose of filling vacancies on the ticket, amending the resolutions adopted at Allentown, which means the substitution, if possible, of a silver for the gold plank now in the platform, and the transaction of such other business as shall properly come before the convention. A resolution to appoint a committee to confer with a committee of populists regarding a joint electoral ticket was laid on the table with the suggestion that the convention was the proper body to deal with that question. But all this was not accepted without much speechmaking an indescribable confusion. The Harrity and anti-Harrity factions locked horns at the outset and they never fraternized throughout the preceedings. The result is regarded as a victory for neither faction, although the Kerr people say they are entirely satisfied. So also do the Harrity people.

TO OPPOSE SENATOR CAMERON

Resolutions Against His Re-election Adopted by Bradford, Pa., Republicana. Towards, Fa., Aug. 14.-At the Bradford county republican convention, held here vesterday afternoon, B. B. Mitchell was renominated for the state senate, and Louis Piollet, Robert S. Edmiston and Lawrence T. Manley were named for representatives. A full county ticket was also nominated. Resolutions urging their representatives to oppose the re-election of Mr. Cameron to the United States senate was adopted. The event of the day was an address by Galusha, A. Grow, congressman-at-large from this state and a former citizen of Towanda. He presented the financial issues in a speech of an hour's length and was listened to with marked attention. He was frequently interrupted by applause.

W. J. DICKEY DEAD.

Bank President and Manufacturer Passes

Baltimore, Aug. 14.-William James Dickey, bank president and head of the well-known woolen manufacturing company of William J. Dickev & sons, died at his home at Wetheredville yesterday. He had been confined to his room for several months suffering from an attack of acute Bright's disease. Mr. Dickey was born in Ireland eighty-two years ago. For many years his firm operated woolen mills in Philadelphia as well as near this city, but of late years all their manufacturing was done in mills located within a few miles of Baltimore. Mr. Dickey had been president of the Manufacturers' National bank since its organization fifteen years ago.

Irish Land Bill Now a Law.

London, Aug. 14.-The house of lords last evening discussed the Irish land bill as it was re-amended by the house of commons. It was agreed not to oppose the lower house and to accept all the re-amendments except one, which, however, was later also agreed to by a vote of 74 to 58, despite the opposition of the landlords. The fact that the house of lords had accepted the bill was formally intimated to the house of commons, which briefly discussed and finally disposed of the measure. The bill will now become a

Suddenly he heard a sound, beporch where the sun filtered through some times just enough to make the temperature high enough for comfortable slumber he was dozing the afternoon away, with the small of his back in the seat of his chair. His pose was that of beatific indolence.

"Hello, Scraggs!" said a drummer who frequently visited the town, "Have a drink?

He lunged forward from the chair and stopped with a violent jerk. An expression of d'smay came over his face. He tugged with all his might at his right foot, but it did not budge.
"Help, help!" he yelled. "Send for the doctor! I'm paralyzed!"

"What's the matteri" asked the drummer. "Is your foot asleep?"

"That foot can't go to sleep," he answered, as he looked wildly around. "It's made of wood. I've got a wooden leg, but this is the first time in my life it ever refused to walk when anybody said 'liquor.' '

The landlord appeared at the door and asked, indignantly: 'What's the matter here? Somebody having delirium tremens?"

"I don't know," answered the drurimer. "Whatever it is, it's something serious. I just asked Scraggsy to come in and have a drink and he can't get to the barroom.

The landlord's countenance assumed a broad grin. "Your wife was here about 20 minutes ago," he remarked. "What's she done?" inquired Scraggs.

"Put a conjuring trick on me?" "No. She looked you over and took a tenpenny nail out of her poeliet and a hatchet from under her arm. 'I'll fix him,' says she. UNFERMENTED GRAPE JUICE. A Grateful Addition to Water During the Hot Weather.

A valued correspondent of the Tribune sends the following well-tested rule for unfermented grape juice, which can be preserved until the season of grapes: "I have noticed directions for putting up grape juice, and as I think my method involves less waste of time and materials I take the liberty of sending it to you. We use it freely during hot weather as a grateful addition to drinking water, and our family consider it superior to any of the various preparations we have used for this purpose, while it has the advantage of being comparatively cheap. After picking the grapes from the stems and putting them in the porcelain-lined kettle, I turn en sufficient water to just cover them, heat to boiling and boil well, for, say, ten minutes, and then, while hot, strain through a stout and rather coarse towel, using the same method to squeeze out all the juice that I use with my lard, using the lard squeezers. I then boil the price again, skimming well, and add from one-third to one-half pound of white sugar to each pint of the juice, and can while boiling hot the same as any fruit. This is put in the celler, and will keep for years without fermenting, while it is beautifully clear, and is heavier and richer than if the juice is strained without pressure." - N. Y. Tribune.

Dainty Gown of White,

A simple but pretty white frock is of lawn, and has the usual flaring skirt, a deep hem, hand sewed, being the rdge finish. The bodies is made of lawn tucking, alternating with lace insertion, and the model used is a fitted blouse. The full sleeves are of the plain lawn, drawn into cuffs of the tucking, each cuff coming far down over the hand in a point that is outlined with a frie of narrow lace. The collar is a folded stock of white sating ibbon, with flaring bows from the back; a deep point of tucking overlaps each side of the stock just in front; these points have an edge finish similar to that on the cuffs. The belt is a folded satin ribbon with a flaring bow on the left side. With this is worn a large hat of cream white straw, trimmed with gay flowers,-St. Louis Republic.

STRANGE BIRD PET. It Is Half Eagle, Unif Ostrich and Striped

Like a Zebra. Tommy Harvey is a boy of ten, and lives away out in Soroma, Cal., and he has the queerest bird pet of any lad in the United States. Some day, perbirds will give Tommy's strange pet a

great long name; but just now there

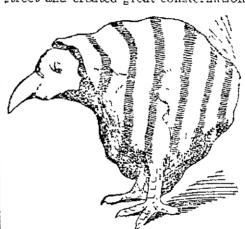

is no one who can tell just what sort of a bird this one is or what to call it.

Tommy Harvey caught his bird while out hunting for fregs in a marsh not far from town, and was having a good tween a screech and a whistle, that made him jump. He started to run and saw the strange bird directly in front of him. Of course it did net frighten him so badly as it did some people who have seen it since, but for several moments he thought there was a sledge-hammer inside of him where his heart ought to be. As boys have a powsrful habit of doing, Tommy got over that feeling and started to investigate the bird. It was not the least bit afraid of him. He used a long stick at first, for the bird to exercise its beak on, until he saw it could not bate very Lind. Gradually he got nearer and nearer, and braver and braver, as he assured himself of the queer bud's

harmlessness. In a short time Tommy mustered up courage enough to stroke the bird's lack. This seemed to please it. Tomray was delighted also, and was not long in making up his mind to take the bird Lome. He had forgotten all about the frogs, and they croaked and croal.ed in unmolested glee.

When Toniny reached home with is prize he first showed it to his mother. But that good woman did not want to look at it. She simply gave a shrick and fled from the house the moment Tommy set it on the floor. The bird, of course, did not mind the shrick and proceeded to make itself at home. Tommy fed it the best there was in the house, and also all there was in the house, and still it was hungry. It ate and ate, and Tommy's mother, who by this time had recovered enough to sneak around the side of the house and peep in the window, was willing that it should have all it wanted.

Tommy then took his bird out on the street and created great consternation

imong the men, and envy among the other boys because it did not belong to them. The first night Tommy owned the bird he wanted to take it to bed with him. His mother allowed him to do this, but boy and bird both slept in the woodshed. Toning has since made up his mind that the bird can sleep by itself in the woodshed. He said he was not afraid-of course not -but it was lonesome out there, and ms pet wanted to play with him and wouldn't let him sleep.

There are a great many peculiar things about the appearance of Tommy's bird. It looks like a combination of ostrich, eagle and owl. It is very young, and yet it is at least 18 inches high, or larger than a baby ostrich of the same age. It is covered with a soft, white fuzz, like a young duck, and has feet that look to be about twice the size they ought to be. Passing down the sides of this creature are stripes of brown color like a zebra; and its head-it's a nightmare. Projecting from a dark circle on its face is the beak of a vulture, while the eyes are small and wicked-looking. The bird's wings are dark in color, and most of the time hang down at its sides. It cannot fly yet and is not able to walk much. It' looks as heavy as a big turkey, but really does not weigh more than three pounds. A strange pet for a boy, don't you think?

Spoke to the Wrong Man.

A' millionaire railway king has a brother who is hard of hearing, while he himself is remarkable as having a very prominent nose. One evening the railway man dined at a friend's house and was seated between two ladies, who talked to him very loudly, rather to his annoyance, but he said nothing. Finally one of them shouted a commonplace remark and then said, in an ordinary tone, to the other: "Ded you ever see such a nose in your life?" "Pardon me, ladies," said the railway man, "it is my brother who is deaf" Imagine the horror of the lady.

The late Sir Richard Burton was at one time exploring Afghanistan in the disguise of a Mohammedan holy man. He played his part to perfection and was enjoying his success, when one of the holy men of the village came to himand advised him to leave without delay. What!" exclaimed Burton, in some darm. "Do not the people like me?" They like you so well," replied the holy man, "that they are discussing the edvisability of Keeping you here for life. so that they may possess your tomb." Sir Richard left that particular village in a great hurry, and afterward took pains to be not quite so pious.

transient nature of the many physical itls, which vanish before proper efforts—gentle efforts—plea and efforts—rightly directed. There is comfort if the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative. Syraped figs, promptly removes. That is why it is the only remedy with millions of femilies, and l everywhere estermed so highly by all who value good health. Its hencibia effects are due to the fact, that it is the one remedy which promotes internacleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine artiele, which is manufactured by the California Fig Syrup Co. only and sold by all reputable d-uggists.

If in the enjoyment of good health. and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

A MARVELOUS EXHIBITION.

Kings and Queens of the Forest and Jungle Seen in a Circular Steel-Barred Cage Performing Together,

You doubtless have seen trained and ducated animals, but it is safe to say that unless you saw these brutes in one of the capitols of Europe, or in one of the great cities in this country, or mayhap at the World's or Atlantic Exposition, you never saw such an astounding performance of wild beasts as are coming with The Walter L. Main shows. Not trained animals—there are all sorts of them in the circus department but wild beasts, wild, ferocious beasts as full or savage instinct, which they are airaid to use, as when, a short time ago, they were roaming in their native forests. This extraordinary exhibition takes place in a great circular, steel-barred cage and is participated in by lions, tigers, leopards, pumas, jaguars, lyuxes, grizzlies, jackals, panthers and bears. These quadruped wonders perform the most amazing teats while actually held in subjection by their lord and master, man. There are actually and postively trilbyized, hypnotized, magnetized, overpowered by the celebrated Magno-Hyrnotist, Herr Stryker Vanderdouk, their operator. They will do just as he bids them do, play like children or fight like the savages they are. He will make them crack huge boulders with their awful jaws, or close their awful mouths upon his bare and defenceless throat with the soft caress of an infant's hand tap. The great steel-barred cage is of extraordinary strength, perfectly safe and secure, and the audience can sit and see the wonderful performance sure of safety, on Saturday, Aug. 15, when the big show will give two complete performances, aitermoon and night.

urnishes an example of this. He says: Some four years ago I had LaGrippe and when I recovered from its attack I found it had left my back in a very bad condition. It now developed into a severe kidney and urinary disease, that caused the most trouble, backache and great irregularity of the urine which had a thick cloudy appearance, was very dark in color. Precipitated a heavy deposit and was so frequent that I had to get up quite often during the night. If I did any extra hard work or caught cold the pain was always more severe and the urinary trouble more annoying. I took numberless remedies for my complaint but failed to find anything to cure me until I obtained a box of Doan's Kidney Pills at J. E. Mills' drug store. Was Looking for a Queen.

 Λ son of the marquis of Salisbury is much interested in bee farming, and this very mild hobby resulted in the wildest kind of excitement in the neighborhood of Hatfield recently. It all came about in this manner: Young Cecil, finding one of his hives queenless, sent an order to Welwyn, the nearest town to Hatfield, for a Carniolan queen-a famous Italian bee-and asked to be informed of the probable time of its arrival. The bee dealer sent off the bee by the next train and wired: "The queen will arrive by 3:40 this afternoon." When Lord Cecil reached the station to take possession of his bee he found the place thronged. The telegraph clerk had interpreted the telegram that her majesty was paying a sudden visit to Hatfield, and, being unable to keep such interesting news to himself, the information spread like

WILLIAM JENNINGS BRYAN, of Nebraska.

For Vice-President. ARTHUR SEWALL,

DEMOCRATIC STATE CONVENTION. The Demoratic electors of the State of New York are requested to unite in sending three delegates and three alternates from each Assembly District to a State Convention, to be held at Binfalo, on Wednesday, Sept. Idih. 1856, at 12 o'clork noon, for the purpose of placing in nomination candidates to be voted for at the ensuing general sheeting and to tensuing such orbor business as Section, and to transact such other business as fray properly come before the convention. (Signed) J. W. HINKLEY, Chairman, August 7, 1890.

The Republicans of Wyoming have nominated Mrs. Sarah Malloy for Presidential elector. She is the wife of a railroad superintendent who is a Democrat. She is the first woman ever nominated for this office, but the honor is an empty one, for Wyoming's electoral vote is certain to go to Bryan.

This is the way Chairman Hackett, of the Republican State Committee, spoke of McKinley in the Albany Journal of May 9:

The extreme protection which McKinley represents is not popular in the east among business men, but the worstthing about the McKinley movement is that he is regarded as a representative of a syndicate of rich manufacturers. The belief is prevalent that if he were elected a clique of plutocrats would parcel out the offices and dictate the policy of his administra-

Senator Gray, of Delaware, who is not supporting the Chicago ticket, takes a very different view of Bryan's speech from the very superficial one taken by the Republican and assistant Republican press of New York city. He says:

Mr. Bryan showed much sagacity in foregoing the opportunity to exploit his oratory before the few thousands assembled in Madison Square Garden, and in stead addressing the intelligence of the country at large in a dignified, and, from his standpoint, able presentation of the single issue of the campaign. It will have to be met, as it can be, by argument, and not by vituperation.

Warner Miller is more "outside the breastworks" than ever having been de. feated, yesterday, in the Republican primaries in Herkimer county. The fight against him was led by Titus Sheard, and it is asserted by Miller and his friends that Platt sent him unlimited supplies of money and that the canal patronage was used in a most outrageous way several hundred men having been em ployed without warrant of law. Sheard and his friends retort that Miller did not conduct a Sunday School campaign, so that, as usually happens when Republicans tell the truth about each other, but one conclusion can be reached,-that both factions are bad lots.

Special County Judge Fullerton, in a speech at Port Jervis, Wednesday night, said: "Patriotism and Republicanism aresynonymous," Heretoforepatriotism has been regarded as the highest attribute of an American citizen and his polit ical affiliations had no connection whatever with that noble sentiment. It Mr. Fullerton is to beli-ved and Republicanism as we know it to-day is but another name for patriotism, then patriotism is at a discount. If Mr. Fullerton had said Hannaism, McKinleyism, Republicanism and plutoceacy are synonymous terms, we could have readily believed him. Perhaps, after all, Mr. Fullerton didn't mean what he said. He is a flamboyant orator, who uses his words with invly thought or knowledge of their meaning and is never to be taken seri-

The esteemed Press makes much of the fact that the Dr. Miles Medical Co., of Likhart, Ind., is inserting in its advertising contracts a chause giving it the right to cancel such contracts in the event of Bryan's election. The Press is fatuous enough to imagine that the medicine venders are taking this course because they see panie, ruin and destruction in store for everything and everybody in the event of a tree silver triumph. There is, however, another view of the matter, which has escaped the esterned, though gold-worshipping Press. The Dr. Miles Medical Company putsupar restorative tonic," a restorative nervine" and a 'cure for the heart." These goods will be all back numbers when Bryan is elected and free coinage or silver brings prosperity to all. With everything going well for everybody health and happiness will so abound that no will think of absorbing tomes relieved of worry, every one's nerves will be so steady that nervines will be remembered only as a chastly dream and as for heart cures, there'll be no eases or heart failure when the Sheriff is no longer a haunting possibility.

NOTHING NEW UNDER THE SUN

Pneumatic Tires and X Rays Known Half a Century Ago.

The X ray is supposed to have been a a discovery of the present year and pneumatic tires for bicycles and other vehicles have only been with us a short time, yet both were known half a century ago. In the Scientific American of May 8th,

1847, appeared the following: A number of cabs with newly invented wheels have just been put on the pave here. Their novelty consists in the enthre absence of springs. A hollow tube of India Rubber about afoot in diameter, inflated with air encircles each wheel in the manner of a tire, and with the addition of this simple but novel appendage the vehicle glides noiselessly along, affording the greatest possible amount of cab comfort to the passenger.

On June 5, 1847, appeared the follow-

ing in the same paper: A Belgian savant says he has just discovered that electric light, directed on the human body, makes it so diaphanous as to enable the arteries, veins and nerves to be seen at work, and their action to be studied.

THE WIDOW PROPOSED.

Had Lots of Money and Wanted to Marry on the Spot. From the Kingston Lender.

There was an amusing scene on Fair street, Wednesday, when a jolly Justice of the Peace of the town of Denning, who is a widower, received a proposal of marriage from a well known widow who resides near the Binnewaters. The widow said that she had a considerable amount of money for a marriage settlement, and as proof of the same pulled out a big roll of bills from her pocket.

Justice of the Peace Bernard Johnston was sitting near and she said: "There is Mr. Johnston who will tie the knot right away. He can do it, because he married me to my first husband, and performed the ceremony in a very satisfactory way." There was a spirited rejoinder of words and it was thought at one time there would surely be a match right there on the sidewalk of a public street with many witnesses to sign the certificate, but the Denning man finally asked for an adjournment on the ground of the weather.

Goshen Band to Play at Midway.

SILVER AMONG THE FARMERS. (From the Oswego Palladium.)

Ex-Assemblyman George M. Sweet, of Oswego county, has come out strong for free silver and the election of Mr. Bayan, Mr. Sweet has been for many years one of the strongest Republicans in his district, has been honored with town and county office and been elected Member of Assembly. He is a rich farmer, and he has reached the conclusion that free silver is the nation's salvation, after having studied the subject for twelve years. Mr. Sweet is regarded at home and by his friends as a level-headed, conservative man; not given to doing things on impulse, and his action will have great weight in helping other Republicans in his town to reach a similar conclusion.

A POOR YEAR FOR REPUBLICANS From the Monticello Watchman.

Hon, Martin A. Smith has written a friendly letter to George McLauglin, who has been considered for some time as slated for the Republican nomination for Member of Assembly, advising him not To run. It is not a good year to run according to Mr. Smith's idea.

St. Joseph's Catholic Church, recently erected in Matamoras, Pa., opposite Port Jervis, was formally dedicated in the presence of a large concourse of people, yesterday. A number of dergymen were present, among them Bishop Leo Haid, of North Carolina, and Bishop Hobar, of S ranton.

A Sewer Mong the Passale.

The commissioners appointed to devise a system for the prevention of the pollution of the Passaic River have decided to recommend the construction of a trunk sewer from Paterson to Newark Bay. The work will be a costly one, but it is said to be the only way in which the end in view can be attained.

The Middletown Players Easily Defeat the Liberty Nine at Liberty-Score 19

The Asylums had an easier time at Liberty with the Moccas, yesterday, than they had the day before in this city. They won handily by a score of 19 to 4, and with just a little care, could have shut the Meccas out without a run.

Clare, a pitcher secured from New York by Tommy Murray, did the twirling for the Asylums, and by his superior head work, had the Libertyites at his mercy.

Shea, who played first base, was taken ill in the eighth inning and Degnan, who took his place, distinguished himself by making two singles in one inning. The manager of the Meccus was so impressed with the playing of Lawler,

Morehead and Lemar that he engaged them for to-day and to-morrow to strengthen the team in games against the Cuban Giants. The Asylums will play the strong semi-

professional team from Bainbridge, on the Hospital grounds, next Wednesday. SCORE BY INVINGE. ... 2 1 0 0 1 0 4 9 1—19 ... 1 1 0 0 0 0 0 0 2—4

A BOY WITH "BIG MONEY."

His Father Had Given Him a \$50 Bill

Thinking It Was Only a Dollar. One day, last week, a small boy boarded the steamer Mary Powell in New York to attend the Baptist Boys Brigade Camp. at Cornwall. He tendered Purser Reynolds a \$50 bill, offering it as a one dollar bill.

Mr. Reynolds said nothing, but thought for a moment, and then gave the lad the proper change for a dollar and ascertained the name and address of the boy's inther and wrote to him. He received a prompt reply thanking him for his action and explaining that the bill was given the boy by mistake.

A HUSBAND'S BRUTAL ACT.

Poured Carbolic Acid on His Sleeping Wife.

Terence Kane, of Paterson, a man of violent and uncontrollable temper, came home late. Thursday night, and for some unknown reason became violently angry at his wife. Going to the bed in which she was sleeping, he turned back the clothes and dashed a large bottleful of carbolic acid upon her lower limbs. She was most shockingly burned and had to be taken to the General Hospital. She refused to make a complaint against ther brutal husband.

A Big Catch of Trout,

From the Livingston ManorEnsign. James Mein, of Beaverkill, probably carries off the cake for the biggest catch of trout in the shortest time. Tuesday of last week he caught, with grasshoppers as bait, in the Beaverkill on the E. J. Gavett property, 104 trout in four hours. The Beaverkill through Mr. Gavett's farm is probably the best trout fish-

SUCCUMBED TO GRIEF. Horse Separated from His Mate Died in a Short Time.

The emotional life of a horse is remarkable. There are instances on record where the death of the horse has been traced directly to grief. One instance is called to mind, which occurred more than 20 years ago. A circus had been performing in the little town of Unionville, Pa., when one of the trained horses sprained one of his legs so that he could not travel. He was taken to the hotel and put in a box stall. The leg was bandaged, and he was made as comfortable as possible.

He ate his food, and was apparently contented until about midnight, when the circus began moving out of town. Then he became restless, and trampled and whined. As the caravan moved past the hotel he seemed to realize that he was being descried, and his anxiety and distress became pitiful. He would stand with his ears pricked in an attitude of intense listening, and then as his ear caught the sounds of the retiring wagons he would rush, as best he could with his injured leg, from one side of the stall to the other, pushing at the door with his nose and making every fort to escape. The stableman, who was a stranger to him, tried to sooth him, but to no purpose. He would not be comforted.

Long after all sounds of the circus had ceased his agitation continued. The sweat poured from him in streams and he quivered in every part of his body. Finally the stableman went to the house, woke up the proprietor and told him he believed the horse would die if some of the circus horses were not brought back to keep him company. At about daylight the proprietor mounted a horse and rode after the circus. He overtook it ten or twelve miles away, and the green who had charge of the injured horse returned with him. When they reached the stable the horse was dead.

The stableman said that he remained for nearly an hour perfectly still and with every sense apparently strained to the utmost tension, and then, with-cut making a sign, fell and died with scarcely a struggle. The veterinarian who was recalled remarked after the circumstances were told him that unquestionably the horse died from grief. If it is possible for all the mental facult.es of the horse to become abandoned to grief to such an extent as to cause death, how much more does he appeal to the sympathy and regard of mankind.-Kentucky Stock Farm.

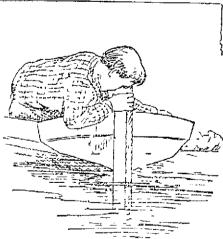

WHERE FISHES SWIM.

This Tells How Any Bright Boy Can Make a Waterscope.

If you go to the lakes or to the seashore this summer you should take a waterscope along with you.

A waterscope is a device which will enable you to peer down to the bottom of a lake or stream and see the seaweeds, with the fish resting among them. Any boy can make one of them very easily, and he can have no end of

The waterscope consists of a long, narrow box, covered at one end with glass—ordinary window glass. To make it get four pieces of smooth, straightgrained pine wood, one-quarter of an inch in thickness, 20 or 24 inches long and 21/2 inches wide. Have these pieces made true and exact in measurement. Carefully tack them together with brads in the form of a long box. It may be well before joining them to daub on r little white lead paint, so as to make the joints watertight. Now cut a piece of glass the size of one end of the long box. You can readily cut glass with an old pair of shears by holding it under water. Fasten this piece of glass to the end of the tube by means of a few small tacks driven close to its edges. Then putty it carefully round, and, when the putty is thoroughly dry, paint the box

WATCHING THE FISH.

and putty, taking pains to fill all the cracks. This is necessary to make the box watertight.

In a day or two your waterscope will be dry enough for use. On some bright Funny afternoon push your boat out on the lake or stream where you wish to speriment. Thrust the glass end of the waterscope well under the surface of the water and place your eye at the other end You will find that you can see through the water with great dist netness, often to the hiding places of fish among those forests of the lake bottoms, the scaweeds. The objects of the waterscope is to cut through the disturbed surface of the lake where your boat stands, and also to protect your eyes from the reflection of the sun on the water. Of comise it does not act like a telescope, and you cannot see to the bottom where the water is very muddy or where it is very deep.

But you will be astonished at what r fairyland of beauty the waterscope will reveal along the edges of some of our clear lakes on a sunny day. Often s in can see a big clain, with his mouth wide open, waiting for his dinner to drop into it, or a lazy pickerei or a sunfish resting near the bottom, and fometimes you will see lost objects of arious kinds, including trolling hooks and lines and other things of a similar AGENTS make \$5.00 a day Greatest kitchen und found a watch he had dropped into notion lever inserved. STRANGE POST OFFICES. Queer Arrangements Seen In Other Parts of the World.

Until quite recently the postal system in Persia was very loosely conducted. It was under the superintendence of a minister of posts, who, however, does not work the system himself. Each road is farmed to some merchant or wealthy person, who pays a certain sum to the minister for the privilege, and makes as much money out of the business as he can.

On the south coast of Patagonia is the most remarkable postal service in the world. Close to the post is a large sign post with the inscription: "Post Office." Attached by chains to the foot of the sign post is a strong chest, which has served as a post office, master, clerk, all in one, for many years. The ships passing through the Magellan straits send a boat to the shore to fetch any letters that may be addressed to their places of call, and at the same time to leave any letters they may wish to have taken in other directions.

In a small group of islands off the south coast of Iceland the islanders have a bottle post, which depends mainly on the wind. When the wind blows from the south they put their letters into a well-corked bottle. To insure delivery, a plug of tobacco or a cigar is put inside, and people on the mainland are usually on the lookout for and ready to deliver the letters so dispatched, in return for the inclosed remuneration.

WOMAN FLIES KITES.

Champion Lady at the Sport Invents : New Kind.

"Barrel kites" are the novel invention of Miss Nellie Ross, of Fruit Vale, Cal., says the New York World. Three months ago she demonstrated their practicability, and since then has proved, as she claims, that they fly higher than any other kites ever made on the Pacific coast. A recent visitor to what Miss Rose calls her "kitery" saw simply a very clean and neatlywhitewashed back yard. Against some deserted henroosts leaned some queer cloth and bamboo objects that looked like flattened balloons with the ends knocked out. The largest were five feet high by four feet broad, and they were of all colors. The string used in flying them is about two miles long.

The young kite-flyer, who holds that every woman should have a hobby and who thoroughly enjoys hers, makes all her own kites. Then she flies nine or ten at once, to the great edification of the surrounding neighborhood and to the delight of the small boys, who are always willing to help haul them in. Each kite is named, and "McKinley" and "Grover" compete with those bearing less famous names to see which can climb the highest. Barrel-kite flying is said to be as pretty as it is successful, and California's champion kiteflyer wears her distinction very grace-

HIS LOT AN EASY ONE. But the Pestered Butler Couldn't See It That Way.

A butler who had been 25 years in the same family went one morning to his master and said that he wanted to leave, says the Weekly Telegram. The master, much astonished, asked what his reason was.

"Do you want your wages raised. ${f John\,?}$ "

"No, sir." "Is it the food that you're complaining of?"

"No. =:= " "Well, what is it, then?"

"I'd rather not say, sir." "Now, John," said his master, losing his patience, "you've been a long time in my employ, and I insist upon your telling me."

"Well, sir," said the butler, finally, "if you must know, it's all along of the missus. It's nag, nag, nag from morning to night, and I can't stand it any longer."

His master sighed and then said, solemnly: "John, go upstairs to your bedroom, lock the door and then go down upon your bended knees and thank Heaven that you're not married to

CALVE PRAISES AMERICA. Says She Would Prefer It to Any Country But Her Own.

Mme. Calve is as loyal to the Americans when she is in Paris as they are to her when she is in New York, says Haiper's Weekly. She has been talking to a Parisian reporter about L'Amerique, and assures him that it is an enchanted and dreamlike coustry, to which, if she were not French, she would wish to belong. She brags handsonaly to her countrymen about our villes magnifiques, with avenues as wide as the Champs Elysees, bordered with structures two or three times as high as the buildings in Paris, and brilliant with electric lights. Even more warmly she praises the remarkable development of our artistic instincts, which encourages artists to give full swing to their true temperaments and to interpret the masters according to their own ideals. Melba, it seems, has told a Parisian interviewer that after singing in opera in America she hardly dares risk herself on a Parisian stage. Caive says she sympathizes with her, and, fond as she is of the Parisian public, looks forward with trepidation to appearing before it again.

Losing

You naturally lose flesh in the summer and running down is so easy. You get a little weaker each day without hardly noticing it. There is loss of appetite, headache, weakness of the muscles, disturbed sleep, weakness of memory, and these are the beginning of nervous prostration. Iron and tonics and bitters may afford some temporary relief, but what you need is a food for body, brain and nerves.

Scotts Emulsion. of Cod-liver Oil with the Hypophosphites, furnishes just the nourishment needed for those who are run down and pale and thin and weak. If you lose flesh in summer take Scott's Emulsion now. Don't wait till fall or winter before beginning.

A DREARY BANNER RAISING.

The Hannaltes of Deerpark Raise & Banner in Silence-Utter Lack of Enthus-

The Decrpark Republicans took advantage of the large crowd present in the village attending the races to unfurl a McKinley banner, Wednesday night, but | house again. according to the Gazette the crowd at the meeting in the Opera-House following the banner raising was not large and there was an utter lack of enthusiasm when the banner was swang to the breeze and at the meeting.

Col. Plummer, who spoke for the Republicans in this city, was the principal speaker and there, as here, made the contradictory statement that the free coinage of silver will give the poor man a fifty cent dollar and at the same time the movement is in the interest of the mine owner who will get double value for the output of his mines.

Other speakers were A. M. Payne, of this city, and H. B. Fullerton, of Port Jervis. These speeches, the Gazette says, were highly polished bits of oratory but argument was lacking.

The committee forgot all about a band until after 8 o'clock. The banner was unfurled in silence and the meeting was half over when the band entered and began to play, the speaking being postponed mean while.

CLAM BAKE AT SHOHOLA.

White Eagle Council, Daughters of Pocohontas. To Give an Excursion.

White Eagle Council, No. 71, Pocohontas Degree, I. O. R. M., of this city. will give its first annual clam bake at Shohola Glen, on Friday, Aug. 28th.

A special train will leave James street at 8:30 a.m., stopping at all stations as far west as Sparrowbush, and returning will leave the Glen at 6:30 p. m. The fare for the round trip will be seventyfive cents.

This will give an opportunity to many of our citizens who have never seen the beauties of Shohola Glen to visit, that fa-

mous resort in good company. The affair will be in charge of Middletown ladies, who will be assisted by members of the two tribes of Red Men. Special cars will leave Goshen for this

city at 7:45 a.m. to connect with the special train.

CAME THROUGH THE HEAT UN-HARMED.

Few Heat Prostrations and No Fatalities in This City,

Middletown passed through the long spell of torrid heat a great deal more lackily than many neighboring places where prostrations from the heat were numerous, and which in a number of cases proved fatal. Here only a few people were prostrated and in no case were the consequences at all serious. It may have been good luck, it may have been that those exposed to the sun or inteuse heat were extra careful or it may have been that Middletown was not as hot as many other places, but certain it is that we all have reason to be thankful that we passed through the trying ordeal comparatively unscathed.

Will Close the School,

From the Montgomery Reporter. The trustees of the Beamer school dis-

trict have decided, under the provisions of the law passed by the last legislature. to close their school the coming year and send the scholars either to Montgomery Academy or Walden school, at the pleasure of the parents. The scholars are so tew in number that the trustees expect to conduct the affairs of the district more economically by paying regular fuition at the schools than by regularly hiring a
